Hi Andrew,

Thank you for your patience and for following-up. One of the Github files associated with this registration were either edited, moved, or deleted while the registration was trying to archive. Since the file is not in its initial state, the registration is unable to go through. Unfortunately, this means you will need to submit a new registration. Please ask all contributors to do not interact with any associated files until the registration is successfully archived.

Please let us know if you encounter any further issues or have any questions.

Request #53745 "Continuous archiving and pending..." was closed and merged into this request. Last comment in request #53745:

Hello,

My name is Andrew Ithurburn. On the 15th of April I submitted an OSF preregistration. It still says that it is pending pre-registration and archiving. Is there any way this can be fixed? The note said that if it lasted more than 72 to contact support. I have previously done that.

Thank you so much for any help. Attached you will find a screenshot of the pre-registration.

Best,

Hello,

I just checked my pre-registration status on OSF and it still shows as pending. Is there any way that this could be fixed?

Thank you for your help.

Hello Mark,

Thank you for your help. Do you know when this could be resolved? I just checked and it looks like it still is showing as the registration is archiving.

Hello,

My name is Andrew Ithurburn. Last week I submitted a pre-registration on OSF however, it appears that the pre-registration still says pending approval. On the "please note" section it says to e-mail if there is a delay of more than 72 hours. Is there any additional information that is needed to help in the approval? Let me know if you require anything additional.

My account is listed under the e-mail address below and the registered from address is https://osf.io/a5nv4

Thank you for your assistance.

Best,

Andrew Ithurburn, MA
